

2019 BUSINESS PERFORMANCE

AUGUSTUS

The purpose of this document is to provide an annual report on our business performance for 2019, our 4th full year in business, documenting with transparency details of our group of companies, and to provide an outlook on the year ahead

CONTENTS

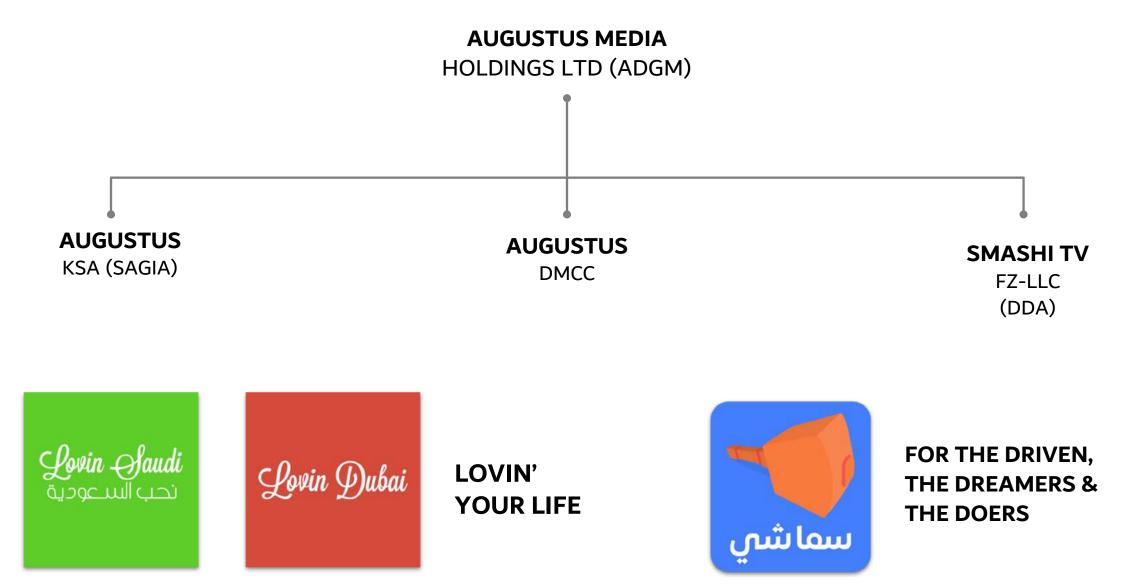

AUGUSTUS MEDIA: MISSION & VISION

We are an award-winning modern company, born in one of the most dynamic and vibrant cities in the Middle East, with offices in Dubai and Riyadh.

Our vision is to establish and maintain a 'New Order' of media advertising with data and content at the heart of everything we do.

Our mission is to be the 'New Media' company of choice in the Middle East by generating profitable growth through innovation and breaking the mold in marketing communications.

AUGUSTUS MEDIA: STRUCTURE & BRANDS

AUGUSTUS MEDIA: DATA ANALYTICS AND CONTENT STUDIO

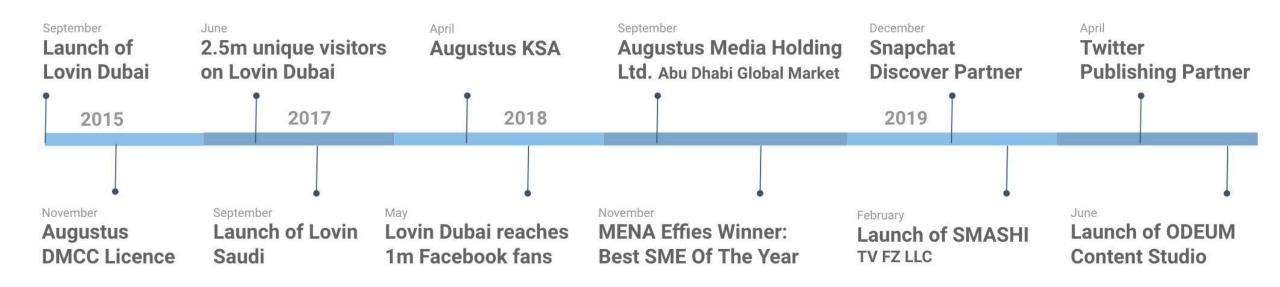

CENSOR

Censor is a proprietary data analytics and reporting platform for Augustus. Its purpose is to improve the efficiency of reporting to clients, track performance in real time and optimize campaigns, in addition to having visibility on revenue performance based on work delivered at any given time.

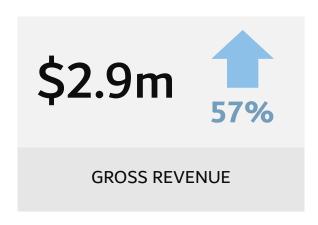

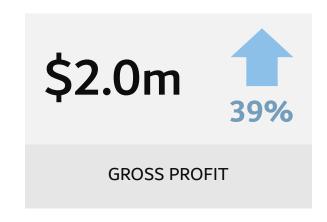

ODEUM is our in-house content studio, powered by data and insights. Designed to produce new media formats, in real-time for clients that live across our brand channels; We aim to connect brands with communities and culture.

AUGUSTUS MEDIA: DIVERSIFIED REVENUE OFFERING

Our commercial model is monetizing our audiences, we do this through a diversified business model, focus on on three buckets, currently approx. 90% of our revenue comes from content, and 10% from advertising, we will look to gradually have an even split across each area

CONTENT:

- Creative work (copywriting, scripts)
- Social media
- Video
- Audio
- AR / VR
- Production

ADVERTISING

- Display direct
- Display programmatic
 (guaranteed, preferred, header
 bidding, open auction, private
 marketplace, & audio)
- Platform revenue (FB, Snap, YT, Twitter)
- Affiliate marketing / commerce revenue

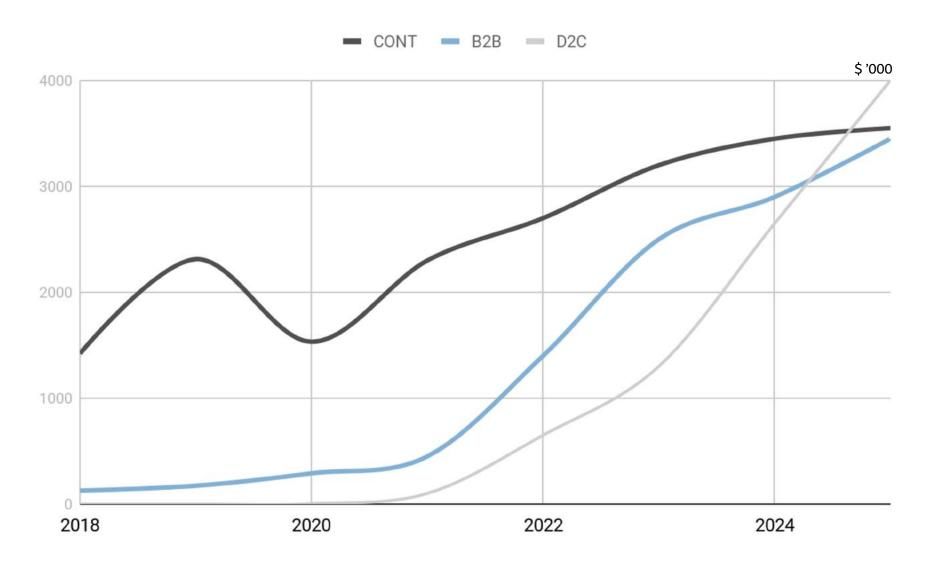

DIRECT TO CONSUMER

- Membership
- Subscriptions
- Events
- Tokens

AUGUSTUS MEDIA: CLOSING STATEMENTS COVID-19 IMPACT

- 2020 was to be a growth year for Augustus, from \$2.8m in revenue to \$4m we would deliver that by increasing revenue on Lovin
 Dubai, and maturing offerings on Lovin Saudi, SMASHI TV and ODEUM and to increase headcount accordingly that was to close out a 3
 year business plan from 2018 2020
- We have seen growth each year in 2017, 2018, and 2019, the majority of which has been reinvested into the business, launching new brands, territories and products
- COVID-19 stopped us in our tracks this year and forced us to rethink, we were coming on the back on the most successful month in the companies history in February 2019, and although with momentum into March, the writing was on the wall early on, our summation was that
 - We would not hit Q1 or Q2 targets, 2020 plans were based on hitting targets, and budgets allocated accordingly so a re-forecast was needed,
 - Our business suffers in Summer, no events and fewer campaigns, F&B activity
 - Duration and long-term impact 3-6 months, versus 1-3 years
 - Global, regional impact Olympics, Euro 2020, Expo 2020
 - Advertising does get impacted, but usually the more expensive parts, digital can push through
- We took the decision that this would be close to the business environment of a recession, in that 'belt tightening' was necessary, we reduced headcount and salaries by 15%, this contributed to an overall reduction of costs by 40%, and revised down forecasts for the months ahead by 70% to 80%
- New health guidelines were put in plan in the office, in addition to a WFH policy
- Rather than hibernate, or press pause on our business plans, we decided to absorb the losses in Q1, Q2, Q3, with a view to continuing to reinvest in the business to finish the year strong, in terms of our audience growth and diversified revenue model, and put a robust new 3 year plan in place

AUGUSTUS MEDIA: INSIGHTS & STRATEGIC DIRECTION

- The advertising industry continues to show growth trajectory in digital, largely based on content and programmatic, consumption trends continue to shift to mobile, audio consumption with social platform driven AR adopting increasing
- The regional outlook continues to be affected by a low oil price and geopolitical tensions, economies in Egypt and UAE saw growth in 2019, with Saudi Arabia flat and Lebanon experiencing a contraction
- We define becoming the new media company of choice in the region, by our media brands being the most popular, by customers and clients choosing to consumer our content and work with us
- The timeframe around this goal is organic, gradual and perpetual, we believe our business legal structure gives us the right framework for local subsidiaries through owned, acquired or partnership entities
- Our mindset driven brands, Lovin Your Life and Driven, Dreamers, Doers are designed to capture the youth of the region
- While news, reporting and journalism has an element of public service, we are first and foremost an entertainment company, we have chosen live, or near live news publishing as the most effective way to communicate on mobile, social platforms, and have done that by moving into the OTT streaming space as well
- Our investment into CENSOR, a data-analytics platform, is recognizing that data plays an important role in content and a modern media company, but also to measure our true reach across all our channels, with a view to having the largest reach in the region
- Our commercial focus is continuing to be on diversified media model, however we have defined that further to (1) Content, (2) Advertising, (3) Direct to Consumer
- Our goal now is to build an in-house tech team to serve our media brands, and commercial buckets, we will do this in Dubai, in a cost-effective way
- The positioning of Lovin brand for regional expansion will suit JV's or other partnerships, whereas SMASHI will be led by localized content targeting build on a solid tech platform coming from the UAE
